

The client portal: one week of build

Everything added since last Monday — a working portal became a product. Page 1: what clients get. Page 2: what the office gets, and what's landing next.

LODGING A JOB

- ✓ **Instant lodgement** — jobs land on our board the second they're lodged
- ✓ **Drag & drop** across every upload, with progress bars
- ✓ Large lodgements beyond normal platform limits (direct-to-storage)
- ✓ **Site photos** — phone shots auto-bundled into one tidy PDF
- ✓ **My documents library** — save engineering once, tick to attach on every job
- ✓ "Save this engineering for next time" builds the library automatically
- ✓ Client's **own reference number** — on the job, in email subjects, searchable
- ✓ Certificates of title / BA1 forms quietly filtered out
- ✓ Per-job-type checklists built into the form

FOLLOWING A JOB

- ✓ Live five-stage **visual timeline** on every job
- ✓ **Per-job pages**: status, documents sent, full conversation
- ✓ **Assigned surveyor** shown on every job
- ✓ Elapsed-day context ("Day 2 · most jobs 3–4")
TODAY
- ✓ Automatic emails: information requests, certificate ready
- ✓ Replies land straight on the job — attachments included
- ✓ "Delivered to your surveyor" receipts on messages
TODAY
- ✓ **Search** by our ref, their ref, address or description + CSV export

DOWNLOADING & SELF-SERVICE

- ✓ One-click certificate package; download receipts posted to our board
- ✓ Three-month availability with visible countdown, then automatic purge
- ✓ **Site plan tool** — draw the lot, drag structures, live setback measurements, print to scale
- ✓ **Engineering checker** — full span/member solver, per-client access
- ✓ 14 photo-covered **guidance notes** (7 written this week)
- ✓ **Resources hub**: council forms, bushfire-map check, 29 councils ranked by our real job volume

DESIGN & FEEL

- ✓ Photo-hero design across every page, matched dusk photography
- ✓ Hand-drawn icon set for all eleven job types
- ✓ Motion & touch feedback throughout — built for phones on site
- ✓ Every message rewritten warm and human; dead ends offer a phone number
- ✓ Premium sign-in redesign, switchable in admin **TODAY**
- ✓ Install-to-home-screen (app-like) **TODAY**

Behind the counter, and what's next

OPERATIONS (THE OFFICE VIEW)

- ✓ **Five-minute auto-sync** with a health banner — one glance covers the whole system
- ✓ **Ten-minute issue hold** — an undo window before any client is told
- ✓ OneDrive guard — never ships a half-synced folder; Word templates auto-excluded
- ✓ Unmatched-client workbench; issued-but-no-files and email-failure warnings
- ✓ Admin toggles: hide any section live; supersede info sheets without a deploy
- ✓ Council-forms manager; engineering-set manager with per-client access
- ✓ Named client logins; append-only **audit log**; turnaround reports vs the published 3–4 days
- ✓ Weekly client digest (optional switch)

SECURITY & COMPLIANCE

- ✓ All documents in **private Australian storage**; every download ownership-checked
- ✓ Hardened sign-in: hashed passwords, one-time setup codes, attempt throttling
- ✓ Silent-failure class eliminated — every write verified, every failure visible
- ✓ Data minimisation: declined-lodgement files deleted; 3-month purge honoured
- ✓ WA public holidays (2026–27, verified) in the turnaround maths
- ✓ Privacy notice drafted; collection wording ready for sign-off

MARKETING & COLLATERAL (19 DOCUMENTS)

- ✓ Client flyer with QR, two-page client guide, welcome letter
- ✓ Launch, login and certificate-ready email templates
- ✓ Services one-pager; certificate next-steps sheet
- ✓ Internal job-flow guide, admin guide, incident card
- ✓ Two-page **go-live audit checklist**
- ✓ Full print system matching the portal brand

SPECCED AND QUEUED (DESIGNS AGREED, IN THE REGISTER)

- ✓ **Address autocomplete** — real addresses picked from a list, no typos
- ✓ **AI document checker** — every Class 10 lodgement checked against our requirements; staff-only findings + a drafted FIR
- ✓ **Guidance assistant** — answers from our own published notes, hands off to messages
- ✓ Site plan tool v2 — draw over the real cadastral lot & aerial by address; generated elevations
- ✓ One-off public lodgement — no-login homeowner jobs via magic links

The shape of the week: the portal now lodges faster than email, answers "where's my job?" before the phone rings, carries our guidance library, and drafts the client's site plan. Next: it starts checking the documents too.
