

Your jobs, online — from today

Hello,

We've launched a **client portal** — a secure site where every job you have with CF Building Approvals lives in one place. From today you can:

- ✓ **See every job's live status** — plain English, updated as it moves
- ✓ **Lodge new jobs and amendments** — straight onto our board, plans attached
- ✓ **Answer our requests in one click** — documents land on the job, not an inbox
- ✓ **Download certificates the moment they're issued** — we'll email you when they're ready

It's **free**, nothing to install, and one login covers your whole office. Your username and a one-time setup code are below — sign-in takes five minutes.

Username: **[USERNAME]**

Setup code: **[SETUP CODE]**

Open the portal, choose *First time*, enter these, and pick your own password — we never see it.

[Open the client portal](#)

Nothing about how we work together changes unless you want it to — email and phone still work, and you'll still get emails from us either way. The portal just means no more wondering where a job is up to. The attached guide covers everything in two pages.

Regards,

The CF Building Approvals team
